

“At the beginning of the race I started on port tack with the majority of the fleet starting on starboard tack. I managed to sail across the fleet and was in the lead at the first mark which put me at 3rd position behind Andy and Justin. During the following 2 reaches Nigel passed me and then on the next windward leg I went out to the right side and Mark and Scott went to the left side and they beat me to the top mark. On the next two legs the positions stayed the same and on the final reaching legs Duncan got passed me. That’s how it stayed for the rest of the race - I got 3rd out of the radials and 7th overall across the line.”
