

LLOYD ANDERSON MARATHON

Sunday morning CYC held our annual Lloyd Anderson Time Trial.

Looking at the weather forecast it was not looking good on Saturday night.

Waking up Sunday morning the river was like a mill pond and after much deliberation it was decided to go ahead with the event.

25 boats braved the weather and headed out on the river, unfortunately the weather forecasters were correct and the weather closed in making conditions pretty ordinary.

To the credit of most of the competitors they soldiered on and it was great to see all boats returned to their pens with no major damage or injuries.

We all retired to the Members' Bar where the drinks flowed freely, then into the Bayview Ballroom where our gourmet BBQ was served.

Results came in and the winners for the day were Dalusional, Skipper Troy Dalgliesh and Navigator Frank Dalgliesh from South of Perth Yacht club with a loss of 5 points. Runners up was Utopia, Skipper Justin Congdon and Navigator Dave Bovell with a loss of 6 points. Third place was Dirty Deeds, Skipper Sandy Moyle and Navigator Trish Moyle with a loss of 8 points.

The NATTA award was won by Rob and Myra Ryan with the loss of too many to count.

Congratulations to all the winners and all entrants that braved the elements.

All things considered the day was a success and I thank all members who attended, it was great to see such a terrific vibe in the Members' Bar on a Sunday afternoon.

I would also like to thank all Checkpointers on the day, Paul Dowding, Adrian Ballard, Don Good, Jason Lambert, Rob the Bosun, Jon Gregson, Ken Craig, Steve Scott, Sue Roberts, George Samuel, Jacob and Hugo Coulson.

Also a big thank you to Justin Congdon, Mike Della Posta and Dave Andrews for compiling all scores. A very difficult job but well done.

Finally on Saturday the 23rd of June we have the 2nd state heat with a dinner following at the South of Perth Yacht Club. It would be tremendous to see as many CYC members attend as possible, it is always a great night.

Regards

Paul Hodgson
Rear Commodore Power
CYC
