

## Commodore's Comments February 2019

Welcome to 2019 at Claremont Yacht Club. The festive season is over, the kids are back to school and people are settling back into their routine. But, not everything is the same - there have been some changes at your Club. Weekend dining – from Friday lunch through to Sunday dinner - is now in the Deepdene room with *al fresco* dining flowing out onto Bovell Green for those who feel so inclined. This simple change has been popular, with many people taking advantage of the more contemporary atmosphere on Friday evenings. The Members' Bar upstairs remains open on Friday evening between 4:00 and 8:00 pm.

Ladies, why not try the Club for Friday lunch with your friends! Have a casual lunch relaxing with and enjoy our full menu and weekend specials along with a great view over Freshwater Bay BEFORE the 3 o'clock pick up for the kids and the start of the weekend with the family.

Fremantle Sea Rescue has helped out a couple of our members over the summer. Why not join Sea Rescue and log on with them when you head out of Fremantle Harbour? It is a cheap and easy investment in your life. I will organise with sea rescue to deliver a Sea Safety and survival session in the near future – watch Midstream for further information.

Coming events – keep an eye on Midstream to get the details of events which will be happening at your Club soon. I hope to hear your views on the future of your Club at the Half Yearly General Meeting on Thursday 21<sup>st</sup> March
